CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 1.-Wheat prices broke on weak caples and leguidation based on weak cooles and increased receipts in the northwest. Part of the loss was re-gained, but at the close prices were still ac to be below Saturday's final quotations. Corn and oats closed weak and provisions The break in wheat prices occurred at

the opening of the session and considerable excitement was crowded into the first half hour of the oay. Seiling was general when trading began, owing to declines of hid to laid at Liverpool and of ic at Berlin. Receipts of the cars at Minnespolis and Duluth, compared with 371 cars the corresponding day a year ago, brought out additional same. The May delivery was given good support early in the assistance. make. The May delivery was given good support early in the session and the price advanced is from the low point of \$1.155.

A dec case of 1.755.000 bu, in the visible supply in the United States reports from the southwest of damage to the fall-sown crop by Hessian it, and a support form the by Hessian fly and a slackened demand for the cash grain heiped to steady the market during the final half of the session. In the tinal minutes of the day July delivery experienced a rally of nearly ic, on buying by several prominent commission houses.

These sales, it was also alleged were being closed larger amounts for forward delivery. These sales, it was also alleged, were being closed at prices above those of recent sales. Copper quotations at the metal exchange and in London were advanced. That the report regarding the copper trade developments were anonymous, and the parties to the alleged transactions unnamed, threw some suspicion about the stories, but they proved efficacious in prompting large buying of the stocks cencerned in that trade. The effect was beneficial on all the metal stocks, United States Steel included. Nothing was learned of any definite developments in the steel frade to change the conditions of price cutting and still laggard demand from consumers in that trade. conditions of price cutting and still lag-gard demand from consumers in that trade. The rise in United States Steel was en-couraged by the news from Washington that the senate would take no action on the instigation of the circumstances con-nected with the merger of the Tennessee Coal and Iron company with the United States Steel corporation. The announcement that the advances in ranscontinental freight rates, which went

into effect on January 1, were to be rescinded in part, seemed to be viewed with contentment, although the prospect of these advances was a long, effective factor in lifting prices of stocks. The early returns of railroad net earnings for January. iting prices of stocks. The early returns of railroad net earnings for January of which but a few have been received, gave satisfactory comparisons. The Harriman Pacifics were sustained by the belief that their January earnings would be reported tomorrow. Foreign influence was propitous to the market, the quieting political outlook joining with the easing money markets to bring this about. Thous own money market the call loan division was sensibly affected by last week's heavy cash withdrawals, by the monthly settlement requirements and presumably by the subscriptions to the Argentine loan. The \$3.720.006 allotment to the United States was ofered and over-subscribed before noon. It is now apparent that the placing of this loan here has affected the large outgo of gold from New York to Buenos Ayres. The strong tone of the market was impaired before the end of the day by realizing sales and by subsidence of demand.

change. With only a few desirable beef cattle in With only a few desirable beef cattle in sight and with the buying demand fair, the market as a whole was in a good healthy condition. As a rule, both buyers and sellers were quoting prices about the same as those which prevailed on Friday of last week. The most of the cattle sold in fair season and the market was without any especially new or interesting features. Cows and helfers were also generally about steady with Friday, but there were quite a good many inferior kinds included among the receipts, stuff that had been shipped in on account of muddy yards and that was not in very marketable condition. Such stuff did not sell any too well, but still it went about as well as it would have

481 western lambs, culls . eceipts were quite moderate, but the coun try demand was not very good and specutry demand was not very good and speculators were none too eager for cattle, so that last week's low prices were not improved upon any today.
